

BAG IT!

- **TOUGH POLYESTER MESH** – Safe, non-toxic in both fresh and saltwater. The 100% polyester construction ensures the bag strength and extends usable life.
- **EASY CLOSE DRAWSTRING** – Top drawstring allows bag to be opened and closed with ease. Reusable - simply open bag and fill with media, pull and tie drawstring shut.
- **VERSATILE BY DESIGN** – Bags are designed to hold many types of media including zeolite, activated carbon, phosphate removers, bioballs, ceramic rings, and buffer medias.
- **MICRONS MATTER** – Use 250 micron bags for mechanical filtration or for smaller medias like phosphate removers. Use 800 micron bags for larger medias like activated carbon and bioballs. The small 3" x 4" bag works seamlessly with smaller filter applications, the larger bucket bag fits snug into a 5 gallon bucket.
- **RETAIL PACKAGING** – Each filter bag is individually packaged in a plastic sealed bag with header card for retail display. Attractive color header explains bag and includes dimensions, mesh size and UPC barcode. Sold 24 per case.
