

SUNDIAL T5HO

LIGHTING SYSTEM - TOTAL CONTROL

- Individually contoured reflectors for maximum light intensity
- Dual integrated timers and automatic photocell for dawn/dusk and lunar lighting control
- Cool running, performance-driven electronic ballasts
- European style high output T5 lamps
- Rear-mounted fans designed for standard aquarium canopy installations

The Sundial high output T5 lighting system brings total control and extreme versatility to a variety of aquarium configurations. Whether it's mounted on top of an aquarium or inside of a canopy or hood, you can rest assured that it's designed to handle a variety of aquarium setups and still deliver professional results. The SunDial's low-profile aluminum housing fits easily under most open-back canopies or hoods, and with only one power cord for total lighting control, the SunDial takes up less power outlet space.

The Sundial features the SlimPaq 10,000k and 460nm Actinic High Output T5 lamps, offering the longest useable lifespan and highest output efficiency of any aquarium lamp. Each unit also includes photocell-controlled Lunar Lights with interchangeable color lenses for automatic nighttime viewing, rear-mounted fan(s) for improved heat removal with canopy installations, dual integrated timers for dawn/dusk applications, splash lens, and docking mounts.

MODEL	DESCRIPTION
1150 24" SunDial T5HO	4x24watt 2-10k/2-460nm actinics
1151 30" SunDial T5HO	4x24watt 2-10k/2-460nm actinics
1152 36" SunDial T5HO	4x39watt 2-10k/2-460nm actinics
1153 48" SunDial T5HO	4x54watt 2-10k/2-460nm actinics
